

ADD SOME **VIPER VENOM** TO YOUR BUILD

# VIPER RGB

DUAL CHANNEL DDR4 TECHNOLOGY

The Viper RGB Series was designed to bring an extra degree of edge and aggressiveness to your build. Using our very own Viper head logo as inspiration, the Viper RGB Series takes a linear aesthetic with captivating angles and sharp outlines. Built to stand out from a sea of rectangles and shine bright with the full RGB spectrum, the Viper RGB Series is unrivalled from the competition.

The level of detail in our Viper RGB Series DRAM is unparalleled. Using the ultimate precision for every single part – including the infamous Viper eyes – for a look you will not find anywhere else but Viper Gaming.
