THINKBOOK 14S

DESIGNED FOR THOSE
ON THE GO

Work smarter—not harder

The ThinkBook 14s is packed with features that make it faster and easier to focus on your business. Boot up and log in with a simple touch using Modern Standby, that not only shortens and slashes your log-in time but maintains internet connection and lets you listen to music while in standby mode.

Built to last longer

ThinkBook laptops must pass multiple quality and reliability tests such as extreme temperatures and vibrations. The zinc-alloy hinge includes powdered-metal technology to increase quality as it's coated with both indium and stannum to enhance resistance to corrosion and optimises Wifi reception.
