

# Lenovo ThinkBook 15 IML

Designed for productivity, engineered for success

## Standout performance & looks

Equipped with up to 10th Gen Intel® Core™ processing and Windows 10 Pro, the ThinkBook 15 gives you seamless high performance and responsiveness wherever you are. Just 18.9mm (0.74") thin, this stylish business laptop boasts a modern mineral grey finish.

## More bang for your buck

As the ThinkBook 15 has narrow bezels and an 83% screen-to-body ratio, you can focus more on the stunning 15.6-inch FHD display. You'll also get to experience rich, clear sound through two Dolby Audio™ speakers. And if you work with complex visuals or like to game in your downtime, go with the discrete graphics card option.

## Thinkbook 15-IML

**20RW0097AU**
