

Lenovo

THINKPAD T490

Does everything but
make your coffee

With a starting weight of just 1.55 kg, the ThinkPad T490 is perfect for portability – a must-have for any busy professional. An amazing viewing experience, thanks to a new narrow bezel design. Longer battery life and optional global LTE-A connectivity make this the preferred laptop for serious business professionals.

Dazzle yourself & others

Combine with optional discrete graphics, the ThinkPad T490 is perfect for working with multimedia. No matter which display you choose, the ThinkPad T490 features a new narrower bezel design for a sleeker design and more productive workday.

Tested for battle, built for life

Like all ThinkPads, the T490 undergoes some of the most stringent product testing in the industry, so you get the perfect blend of value and durability when you purchase one.
