

# Lenovo V15

III

## Get the job done

### SLEEK VISUALS

This laptop's contemporary design gives it a premium look and feel, with a slim body that travels well when you're not in the office. The optional FHD (1920 x 1080) 39.62cms (15.6) display yields vivid colors and clarity, with narrow side bezels to enhance the view.

### TESTED FOR RELIABILITY

We tested this laptop for reliability and durability against eight extreme conditions: shock test, vibration test, keyboard in-system test, hinge life test, fan reliability test, panel scuff test, operating temperature test, and pressure test. It's ready for whatever conditions your business can put it through.

### Thinkbook 15-III 82C500R9AU
