

Explosive Efficiency Extraordinary Speed HP EX900 M.2

2100MB/s
Max Read

125K IOPS
Max Random Read

NVMe 1.3
New Protocol

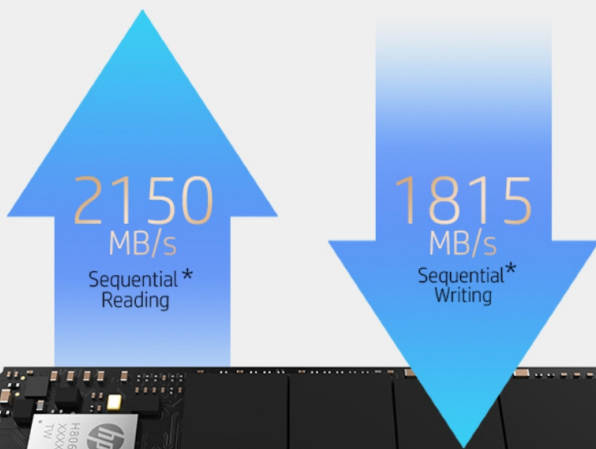

4-Channel HP Controller
PCIe Gen3 x4

3D Nand Flash
Better Durability & Reliability

Lower Power Consumption
More Energy-efficient

Ultra-high Performance without Latency

The read and write speed of EX900 reach 2150MB/s and 1815MB/s respectively, which ensures faster speed and higher efficiency. EX900 fully accelerates the PC systems, enabling PC boot, program startup and files loading in seconds.

*The read and write speed of test data is for the capacity of 1TB. The data may vary in different capacity and different test environment.
