

Create Wonderful Moments Modern 15

Define yourself and be your own inspiration. Modern series travels with you in every aspect of life. Powered by the latest 10th Gen. Intel® Core™ i7 processor (Comet Lake) with NVIDIA® discrete graphics. Modern 15 is the perfect laptop for video editing, graphic designing and entertainment.

Wandering around the city to find your inspiration, share your stories online in a coffee shop, lie down on a sofa while enjoying a touching movie or edit your recent trip video on the train heading to your next destination. Modern 15 provides everything you need to create wonderful moments.

Perform Wonderfully

Up to latest 10th Gen. Intel® Core™ i7 processors (Comet Lake) and ultra-fast SSD deliver uncompromised performance when multiple real-time workloads are stacked. The world is at your fingertips, you can capture wonderful moments instantly everywhere.
