

THINKBOOK 15P

Business laptop, creative powerhouse

If you're a creative professional looking for a high-performing laptop that combines a 10th Gen Intel® Core™ processor with powerful graphics, the ThinkBook 15p is the choice for you. This stylish, secure workhorse offers up to a 4K UHD (3840 x 2160) 600 nits screen for accurate image rendering. Smart features and optimised conferencing power your productivity even further.

Next-gen Intel power & graphics

The ThinkBook 15p's 10th Gen Intel® Core™ processor, combined with powerful graphics options, make it a great choice for heavy-duty, graphics-intensive tasks. Photo editing on Adobe Lightroom and Photoshop, for example, runs up to 35% faster than previous models.

Connect when & how you need to

Lightning-fast WiFi 6 enables faster downloads and seamless remote collaboration—even with multiple devices connected to the same network. And connecting to peripherals is hassle-free, thanks to a generous selection of ports including USB-C 3.2 Gen 1, HDMI, USB-A 3.1 Gen 1, and more.

Fuel your creativity

Run and render 3D modeling and simulation-based apps on the ThinkBook 15p laptop with the NVIDIA® GeForce® GTX with Max Q graphics. Robust memory and storage options equip you for even the most audacious tasks.
