

AUSCOMP SECURED DISTRIBUTION FOR PATRIOT MEMORY AND VIPER GAMING PRODUCTS

Auscomp Computers has secured distribution of Patriot Memory and Viper Gaming products for ANZ region. Patriot is a global leader established in 1985 in the San Francisco Bay Area, which designs, manufactures and markets high performance memory modules, flash memory, mobile accessories and gaming equipment. They are brand of choice for the tech industry with high commitment to quality and customer service.

Auscomp computers is bringing to Australian market full range of Patriot products suitable for mainstream, business solutions and their high-performance Viper Gaming products. Viper Gaming offers high quality products for every type of gamers. Whether you are looking for absolute precision for the 12-hour gaming marathons, or just need something to give you a little edge when playing on the weekends.

This is why Viper is GAMER CERTIFIED.

Customer spend in gaming segment has had a healthy YoY increase across all product segments and Patriot with their dedication to the top-tier end of gaming is natural fit into Australian market and we are happy to welcome Patriot in our distribution portfolio.

Due to product release alignment first wave of product brought to Australian market is a mainstream and business Patriot Signature DDR4 memory and Solid State drives (on stock) which will be complimented with USB flash drives, Micros SD cards and MFi Certified Sync & Charge Lightning Cables.

Full range of Viper gaming products (Viper memory, keyboards, mouse, headsets,) will be on stock by end of February.

Patriot has secured multiple awards for their product which talks about their dedication to high end gaming market.
